Regenerative and Degenerative

- Degenerative
- Runs down Carbon
- Runs down Diversity
- Jump all over it
- Upset / break cycles
- Do we know how to do it?

- Regenerative
- Feels good
- Upsides abound
- Reinstate all Cycles
- Increase Carbon
- Increase diversity
- Do we know how to do it?

Carbon and Diversity

Carbon, Carbon, Carbon

Diversity, Diversity, Diversity

Holistic and Reductionistic

- Rabbit Holes
- Plenty of them
- No end to depth
- If you go down a Rabbit Hole don't forget to come out.
- Big picture past the Stars
- Putting it altogether in context to suit our situation
